

## **Adobe Photoshop CC: Level 2**

Course Length: 1-day (8:30am – 4:00pm)

Course Cost: \$305.00 plus GST

### **Overview**

Target students include professional or amateur photographers who want to use the robust features of Photoshop to enhance, modify, and organize their photographs, and anyone interested in working toward the Visual Communication with Adobe Photoshop exam certification.

Adobe Photoshop CC is a leading graphic creation application, popular among graphic designers, illustrators, and photographers. Photoshop's numerous features work together to provide a comprehensive toolset for you, the design professional. This course delves into some of the more advanced image creation and editing techniques, and offers you hands-on activities that demonstrate how these techniques can be used in combination to create exciting visual effects.

### **Course Objectives**

This course will prepare you to use the most common basic features of Adobe Photoshop CC.

You will:

- Use brushes, gradients, and tool presets to create raster images
- Apply vector paths, shape drawing tools, type, and type special effects
- Apply advanced layer techniques with masks, filters, layers, and smart objects
- Apply actions and batch processing to automate tasks
- Edit video by using timelines, transitions, graphics, titles, and animation
- Set project requirements by identifying the purpose, audience, copyright rules, and project management tasks

### **Course Content:**

#### **Lesson 1: Creating Raster Images**

**Topic A:** Draw with Brushes
